TECHNOLOGY COMPASS CERAMIC POOLS

Facts on Compass ceramic pools:

- THE ONLY ORIGINAL AND PATENTED CERAMIC TECHNOLOGY IN THE WORLD
- OVER 60 000 POOLS SOLD
- 30 YEARS OF EXPERIENCE AND RESEARCH IN AUSTRALIA AND THE U.S.A.

Advantages:

- exclusive 3D shiny surface without pores
- life time guarantee for osmosis (absolute impermeability)
- ceramic core (patent PN1690) enhanced firmness without any loss of flexibility
- fast and easy installation in a few days
- built-in without a concrete foundation plate
- pool quality guaranteed, permanent control of the production process
- strict compliance with the tried Australian technology

THE ONLY ORIGINAL CERAMIC POOLS TECHNOLOGY

Bi-luminiteTM
by CompassPools

Crystite[®]
by CompassPools

Bi-luminite

- Fantastic 3D colours with unique colour protection
- Excellent resistance against chemicals, mechanical damage and high temperature
- Special treatment against UV radiation

Further exclusive features:

slip stop: Surface pattern by steps ledges, pool bottom, swimmouts and partially at pool copying provides safety and anti slip effect for pool users.

integrail + Step Ledge: Some Compass models are equipped with handrail around pool for more safety. Compass Pools's innovative range of safety ledge pools provide added peace of mind and security for your family. Children learning to swim under adult supervision have the security of the safety ledge to give them extra confidence.

SBR Slim Balsa Ribs: Adding patented balsa ribs into pool construction will dramatically increase straightness of Compass pool's construction without increasing its weight. SBR is optimal for pool's stacking

hydrostatic VALVE: Integration of hydrostatic valve in deepest point provides addition protection against pressured ground water.

Type	Length	Width	Depth	Volume	Weight

Riverina series *emotion*

RIVERINA SERIES

A ceramic pool perfect for the whole family to enjoy.

The Riverina ceramic swimming pool is ideal for a family that loves to swim, with entry steps and safety ledge the Riverina is safe for children and adults alike.

RIVERINA SERIES

- The modern „free shape“ design makes Riverina an elegant pool for each type of house or surroundings
 - Gradually descending pool bottom is suitable for both older people and children
 - Wide steps and integrated relaxation area where massage nozzles or air massage devices may be installed
 - Perimeter grip rail and the step ledge around the pool make young swimmers feel safe
 - Relaxation zone in the deeper part of the pool
 - Integrated hydrostatic valve
 - Possibility to install Vantage – a self-cleaning system
- The pool structure is elastic enough to adjust to possible moderate

The pool structure is elastic enough to adjust to possible moderate unevenness of the ground and also allows installation on a steep slope and difficult terrain. These advantages are enhanced by the strict Compass output control and design meeting the strictest standards. Select suitable accessories and attractions (counterflow, wellness set, waterfall, etc.) lights, type of water treatment, heating, and many other features.

VOGUE

The Vogue ceramic swimming pool represents the pinnacle in contemporary pool design, making it the perfect centrepiece for your landscaped entertaining area.

Its modern rectangular shape is enhanced by the symmetry of centrally positioned entry steps and bench seat, combining style and functionality.

ADVANTAGES OF THE VOGUE CERAMIC SWIMMING POOL:

The Vogue is a perfect ceramic swimming pool for everyone in the family, offering something special for all ages in a unique and elegant design.

- An unobstructed swimming corridor for those who enjoy fitness and fun.
- A swimout and wide steps at either end, making it perfectly safe for the entire family.
- A step ledge at just the right height around the ceramic swimming pool walls which gives children a place to rest and adults a little help when leaving the pool.
- The ceramic swimming pool floor and steps have a slip-resistant finish.
- A smooth surface that's kind to your swim wear and gentle on your skin.
- This ceramic swimming pool has a ceramic core that doubles the pool life.
- Superior insulation making the pool warmer to touch.
- A ceramic swimming pool structure that is designed to cope with varying soil conditions.

Trainer series *wellbeing*

TRAINER SERIES

TWO LANES FOR HEALTH, FITNESS, AND FUN FOR ALL
 Standard pools allow only one swimmer to swim at a time. Two lane X-Trainer allows two or more people to swim together. X-Trainer's extra width suits water games and cross-training programs. Aquatic training is kind on bones and joints and is perfect for both the elderly and young children.

- THE GREATEST ADVANTAGES OF THE TRAINER SERIES POOLS:**
- modern geometric shape with two lanes,
 - two staircases with integrated relaxation zone,
 - gradually sloping pool bottom suits both the elderly and children,
 - wide steps and integrated relaxation zone where massage nozzles or air massage devices may be installed,
 - the step ledge makes small swimmers feel safe,
 - relaxation zone in the deeper part of the pool,
 - integrated hydrostatic valve,
 - possibility to install the Vantage self-cleaning system.

XL TRAINER

- an adjusted version of X-Trainer with the following additional features:
- a zone in the deeper part intended for installation of the Compass Pools rolo cover, installation of massage nozzles or to serve as a relaxation zone.
 - perimeter border for safe fit of the lamella cover

X-TRAINER 58

X-TRAINER 82

XL-TRAINER 90-110

CLASSIC STYLE JAVA SERIES POOL WITH THE ORIGINAL COMPASS CONSTRUCTION SYSTEM

Java represents a unique pool with Roma steps and even bottom. The impressive entry enhances the shape of the pool that is perfectly suitable for water games. The classical design of Java will create harmony also in your garden.

SAFETY IS THE CREDO FOR EACH COMPASS POOL AND JAVA IS A PERFECT EXAMPLE.

Relaxation zones on both sides and wide integrated steps in the Roma style make entering and leaving safe. The perimeter grip rail sits just below the surface to provide support for children and a little help for adults when leaving the pool at any point. Steps, pool edge and pool bottom have non slip finish.

NOVA® COLOURS

Nova® range is one of the most advanced gel coat systems in the world. Using new type of chips and upgraded base colour blends. Aesthetically, its translucent holographic effect gives a distinguishing brilliance.

Nova® | **Onyx**

Nova® | **Blue**

Nova® | **Pearl**

Nova® | **Jade**

BI-LUMINITE® COLOURS

Bi-Luminate® surface and its 3D colours represent a revolutionary change. These colours change the look of composite pools thanks to small glittering particles just below the top-coat and the application of two paint layers instead of just one. This patented Bi-Lumination® process creates unique colour effects. The depth and glittering effects provide Compass pools with a unique palette of amazing colours. That is why your Compass pool may perfectly blend with the surroundings or you can create a powerful and emotional manifestation of your style and taste.

Characterisation:

- 2 layers of special paint applied separately onto the mould surface,
- colour effect of the most beautiful sea lagoon that you can imagine,
- coloured layers are applied manually as on the most expensive cars and therefore each pool is an original.

Bi-Luminate® | **Blue Sapphire**

Bi-Luminate® | **Blue Granite**

Bi-Luminate® | **Granit**

Bi-Luminate® | **Smokey Quartz**

Bi-Luminate® | **Golden Pebble**

SOLID COLOURS

permanently elegant standard RAL paints of the top quality for conservative pool fans. Application of state-of-art additives secure the highest possible colour stability.

Solid Colour | **Compass Blue**

Solid Colour | **Papyrus White**

Colour your swimm!

The colour of the pool is important

SELF-CLEANING POOL

CompassPools vantage®

A SELF-CLEANING POOL IS NOT A MYTH ANYMORE ... COMPASS VANTAGE.

A mountain spring is a symbol of cleanliness and freshness. What makes it so clean? It moves permanently. The spring flows in its bed, takes away dirt and dust and moves all the time thereby giving no time for algae and bacteria to grow. The same result can be achieved in your pool. But you must either clean, sweep, clean with a pool vacuum cleaner and add chemicals or.

YOU CAN SIMPLY BUY A POOL WITH THE VANTAGE CIRCULATION AND CLEANING SYSTEM.

VANTAGE is the best self-cleaning system for composite pools in the world. VANTAGE collects debris efficiently and automatically. VANTAGE circulation eliminates growth of algae and bacteria. VANTAGE circulation reduces the use of chemicals.

VANTAGE is the world number one among circulation and cleaning systems and is much more efficient than any pool vacuum cleaner. The VANTAGE system provides efficient and high-performance cleaning from the surface to the bottom of the pool.

VANTAGE IS ABSOLUTELY SAFE.

And all this is enhanced by high performance, reliability, and perfect design. The VANTAGE system is almost invisible and will not disturb the look of your new beautiful pool. Nozzles and accessories for the VANTAGE system are available in three colours complementing the colours of your pool. There is no competition for VANTAGE. Its massive patented telescopic nozzle „Pop-up“ is able to cover a four times larger area than small devices and therefore it copes even with larger pieces of debris. The water valve and debris containment canister, debris collection zone), water curtain, and also the amazing MDX are protected by patents.

VANTAGE is available only for new pools. A system of strategically located nozzles, which are a part of the VANTAGE system, is installed during the manufacture of your new composite pool. Each VANTAGE system is installed by fully trained experts. It means that you can enjoy your new, crystal clear pool equipped with the VANTAGE system without any worries.

If you wish to relax in your new pool, go for the circulation and cleaning system VANTAGE.

The pool that cleans itself

ROLLO COVERS FOR POOLS

CompassPools rollo cover®

COMPASS POOLS ROLLO COVER

The Compass Pools Rollo Cover, an integrated slatted cover, guarantees maximum energy efficiency and full safety of your pool. By means of capturing freely available solar energy, solar slats ensure optimal warming of swimming pool water by 4 to 8 °C depending on the season and geographical location. At night, evaporation and heat losses are limited to a minimum. The Compass Pool Rollo Cover can bear the weight of a small pet, child or even an adult. For maximum safety, an integrated perimeter guiding ledge prevents submersion of the slats when under load.

ROLLO COVER CHARACTERISTIC

The Compass Pools Rollo Cover chamber is integral part of your pool and contains an immersed mechanism with guiding wheels. When automatically opened or closed, slats are smoothly guided and rolled around a stainless steel roller. The slats are propelled by a sophisticated in-roller motor installed in the cover chamber. When opened, the cover slats are invisibly submerged below the water level behind a fixed panel in the same colour as the pool. The Compass Pools Rollo Cover mechanism is controlled by remote control and meets the strictest EU safety standards.

UNIQUE HIGH WATER LEVEL

Thanks to a custom designed overflow skimmer Compass Ceramic Pools have an exceptionally high water level that can be regulated automatically. The pool looks more elegant and while swimming you always have a good view on your garden and surroundings.

COVER SLATS

The Compass Pools Rollo Cover slats are made of rigid PVC with improved resistance against mechanical damage and UV-radiation.

COMPASSPOOLS | ROLLO COVER CAN BE INSTALLED IN THE FOLLOWING MODELS:

■ XL-Trainer 90

■ XL-Trainer 100

■ XL-Trainer 110

■ XXL-Trainer 133

■ XL-Java 114

■ XL-Brilliant 88

■ XL-Fast lane 130

POOL ACCESSORIES

CompassPools genuine pool parts®

„We offer only **selected brand products** – the quality of which we are 100 % sure. Check it yourself.”

CompassPools

COMPASS GENUINE POOL PARTS:

CompassPools devote great attention to the quality, design, and functionality of each part used within the installation of pools. All parts are designed and optimized to meet all required European standards. The optimum functioning of the entire pool is ensured through the use of original Compass parts.

Ask your dealer to supply only original parts marked with the following logo:

CompassPools genuine pool parts®

INTELLIGENT POOL CONTROL SYSTEM

THE PHILOSOPHY

- WATER BALANCE AND MAINTENANCE OF THE POOL IS A COMPLEX JOB FOR A POOL OWNER
- THE PURPOSE TO HAVE A POOL IS TO HAVE A PLEASURE OF SWIMMING
- COMPASS IQ IS AN INTELLIGENT COMPUTER DESIGNED TO KEEP COMPASS POOLS ONE STEP AHEAD AGAINST COMPETITION

THE IQ™ TECHNICAL PROCESS

- Real time analysis and management of water quality (water pump, electrolysis...) and special features (ie - massage, jet...)
- Display pool water information at home and remotely to offsite maintenance service
- Full time pool water analysis information recording and uploading to remote management server via internet

Remote comfort features

- temperature set up
- on/off lightings, massage, water-features
- covering of pools
- swimm jet

The customer benefits

- Complex chemical and technical analysis
- User friendly remote management of pool controls
- Access to normally invisible data
- More time spend in the pool ... for pleasure
- The potential of using the minimal chemicals as to reduce enviromental impact

The dealer benefits

- Remote control via internet and optimized water chemistry
- The proof of the real water quality as promised
- A sales feature to convince a potential but anxious customer
- Reat time datalog of water balace, linked to Compass Ceramic Pools warranty conditions
